Dear Sir:

We should like to be kindly advised as to the possibility of obtaining to a limited extent, a renewal of the coinage of two cent pieces.

The demand for these coins in New York and Brooklyn far exceeds the supply, and as the rule is first come, first served, it is a difficult matter to obtain them just when they may be most wanted.

We would use between \$5000 and \$6000 worth per year and there are many other establishments in this and New York City who would guarantee to take similar quantities.

If any formal application looking to a renewed supply of this very useful coinage

would possibly receive consideration, please  
instruct us how and to whom it should  
be made.

Yours respectfully
